B2 - Technical

Passionate about computer science since the age of seven, I studied at ITT G. Giorgi, earning three CISCO certifications, and later pursued Computer Science at the University of Bari, expanding my skills in Android, C++, Java, PHP, and soft skills.

I started my career at Fincons Group as a junior developer, obtaining an AWS Developer certification, then worked at YOOX-Net-A-Porter Group, Doveconviene.it, and SAVI Italia as a Full Stack / Software Engineer, contributing to CMS platforms, cloud-based solutions, and high-quality testing processes.

I now lead Prisma, my IT consulting company, focused on building custom software solutions for other companies.
